**IMPORTANT UPDATE:**

Data Collection Issues- Volume and Test Results

**Volume and Test Results**

Normal data collection of milk pick-up information has now resumed. Also, all producers should by now be receiving their **lab test results** by email.

However, we have temporarily disabled the emailing of **milk pickup slips**, because of a remaining technological issue. We hope to resume this function as soon as possible. In the meantime, please refer to your hand-written barn sheets for volume information.

We understand the importance of timely information to your farm and staff are working on resolutions.

We apologize for any confusion or inconvenience this may cause. And we thank you for your ongoing patience.

If you have any questions, please contact Woody Siemens at [wsiemens@bcmilk.com](mailto:wsiemens@bcmilk.com)
